PART – II

- Q. No. 2.** Geographic Information System (GIS) has become global and has permeated almost every aspect of human life. Therefore, Urban Planners can take urbanization to new scales using GIS. Discuss with examples. **(20)**
- Q. No. 3.** Planning is the backbone of development activities. It points out a precise way to reach a pre-determined goal within a pre-determined period of time with the means that are available with a planner and under the prevailing circumstances. Based on the information, what are the problems faced if there is no planning for towns and how it helps a city to grow? Explain. **(20)**
- Q. No. 4.** What is meant by development control in context of urban development? What are the types of development controls? Explain with the help of examples. **(20)**
- Q. No. 5.** Explain Five different ways to make cities more sustainable and resilient. **(20)**
- Q. No. 6.** Good urban design adds value by increasing the economic viability of development and by delivering social and environmental benefits. How good urban design adds economic values? **(20)**
- Q. No. 7.** Affordable housing projects are not only vital for the well-being of the society but can also contribute greatly towards a stronger economy. What are the economic benefits of affordable housing in Pakistan? **(20)**
- Q. No. 8.** Write short notes on any TWO of the following: **(10 each) (20)**
- (a)** Land use classification policy of Pakistan
 - (b)** Urban Planning of Nile Valley Region
 - (c)** Rural and Urban settlements are complementary to each other. Justify.
